

2055-A-SG

100% aluminum safety air gun with high blowing force

SILVENT 2055-A-SG is a safety air gun that is equipped with a softgrip handle for greater comfort. The safety air gun has an aerodynamic aluminum nozzle that provides a blowing force equivalent to 5 conventional compressed air guns. Despite the high blowing force, the sound level is comparable to that of a conventional air gun. The 2055-A is a powerful but flexible safety air gun that is ideal for applications that require a high blowing force. Fully compliant with EU Machinery Directive noise limits and OSHA safety regulations. Patented.

PERFECT FOR DEMANDING APPLICATIONS

Equipped with an extension pipe, these guns are ideal for applications that are hard-to-reach or hazardous for the operator. A properly dimensioned extension pipe protects the face from dangerous flying debris and spattering, and allows the user to maintain a more ergonomically correct working posture.

SOFTGRIP HANDLE These safety guns can be equipped with softgrip handles that are easy on the hand and insulate against both heat and cold.

PRACTICAL DESIGN The 2000 grip is made of aluminum and is highly versatile, lightweight and user-friendly. It has a modern and practical design that can be fitted with various types of safety nozzles, extension pipes, safety accessories etc.

Order no: **2055-A-SG**

Replace open pipe Ø	8 mm	(5/16")
Blowing force	13.5 N	(3.0 lbs)
Air consumption	92 Nm ³ /h	(54.1 scfm)
Sound level	93 dB(A)	
Blowing pattern	Wide	
Connection	G 3/8"	3/8" -18 NPT
Nozzle	2005	
Material (nozzle)	Aluminum

Extension pipes in 6 lengths

Standard - 0 mm (0")

The guns of the 2000 series are available in six different versions - five with extension pipes of different lengths and one with the nozzle mounted directly onto the pistol grip. The extension pipes are made of aluminum. Indicate the length of the extension pipe you require last in the order number. Safety gun-extension pipe length: e.g. **2055-A-SG-2000**.

TRY IT YOURSELF!

Do you have air guns that are dangerous for the users? Do you have equipment to test your air guns? SILVENT OSH contains an "OSHA meter" that shows whether your air guns are dangerous for the user. Every production facility that prioritizes workplace health and safety should have an OSHA meter.
