SILVENT 

SAFETY AIR GUN SILVENT 4015-L

Item number: 40150139241, 40150239241

SILVENT 4015-L: without adjustable blowing force. Suitable for applications where 100% power is always required. Otherwise, the same performance as 4015-LF.

4015-LF

SILVENT 4015-LF is a unique product that combines highly concentrated blowing force with an easily maneuverable valve construction and low sound level. The patented nozzle design with a Laval orifice in the center surrounded by a ring of slots generates a low-turbulence air stream, which means a low sound level with no sacrifice of blowing force. The nozzle is made of stainless steel, making it suitable for use in practically any environment where extra high blowing force is required, e.g. the paper and manufacturing industries, steel mills etc. This air bazooka features adjustable blowing force that is easily regulated to any strength between 5% and 100%.
