## AIR NOZZLE SILVENT X01

Item number: 0X010169586, 0X010269586

SILVENT X01 is a stainless steel blowing nozzle with patented multi Laval technology. The energy saving air nozzle is part of Silvent's revolutionary new X-series. The nozzle in the new X series has a completely new and innovative design that creates a concentrated jet of air with reduced turbulence, thus enabling a more targeted, effective blowing force. Thanks to the newly patented technology, the air nozzle's design optimizes the air pressure's change from potential energy to aimed concentrated kinetic energy. This allows for maximal use of the air pressure. The unique design makes it possible to reduce noise levels during blowing by more than 10dB(A). The blowing nozzle is perfect for environments with high cleanliness requirements, such as the food industry. The nozzle has a 1/8" connection.
