

AIR BLOW GUN SILVENT 007-MJ6

Item number: 00070139257, 00070239257

SILVENT 007-MJ6: an alternative to 007-MJ4 if you need a little more blowing force. The blowing force is 2.5 N (8.8 oz) or approx. 75% of that of a standard air blow gun.

1 Two-step system

The 007 grip features a unique valve design with a two-step system that considerably reduces both noise levels and energy consumption. The first step, variable position, allows variable adjustment of the blowing force and is more than adequate for most types of work. It generates a low sound level and permits energy savings of up to 50%. The air blow gun's second step, the "booster position", delivers twice the blowing force for the most demanding operation.

2 Top and bottom connection

The grip offers two connection possibilities – both top and bottom air supply connection. From the viewpoint of safety, as well as ergonomics, top connection is the best alternative. Safety valves at the connections eliminate the risk of injury.

3 Softgrip handle

The 007 air blow gun has an ergonomically designed Softgrip handle of synthetic rubber that is highly durable and oil resistant. The material insulates well against heat and cold, and the handle is easy on the hand and wrist.
