

AIR BLOW GUN SILVENT 500-X

Item number: 05000169752, 05000269752

SILVENT 500-X: is an ergonomic air blow gun designed with a revolutionary air nozzle technology for optimal efficiency, safety and noise reduction. The new patented multi Laval technology constitutes a new dimension in blowing technology. The effect is achieved by optimizing the air pressure change from potential energy to aimed concentrated kinetic energy. The stainless steel air nozzle is the outcome of Silvent's leading R&D in compressed air dynamics. The air blow gun is suitable in any industry where ergonomic tools are required to make the job quick, quiet and with the operator's safety in mind.

No muscle strain

The trigger mechanism requires a pressure of only 7 N (25 oz), which means that the gun can be used frequently without the risk of taxing muscles. The average finger strength of men is 96 N (339 oz) and of women, 81 N (295 oz). When less than 10% of the maximum strength of a finger is used, no injury arises due to muscle strain.

Ergonomics and precision

The combination of an ergonomic handle and a short trigger for one or two fingers provides a perfect grip as well as the possibility to aim the air blow gun with precision and feeling. The ergonomic design of the handle automatically gives you the optimal blowing position so that you do not need to bend your wrist.

Triggers

Fitted with short triggers as standard to provide the most ergonomic grip. If desired however, they can also be equipped with extended triggers.
