

AIR BLOW GUN

SILVENT 500-Z

Item number: 05000139013, 05000239016

SILVENT 500-Z: fitted with a zinc slot nozzle and suitable for general-purpose cleaning in environments where the nozzle is subject to little or no mechanical wear. Provides strong and extremely quiet blow-off power. The sound level is just 79 dB(A). For more aggressive environments, we recommend our 500-L or 500-S safety guns with nozzles of stainless steel.

No muscle strain

The trigger mechanism requires a pressure of only 7 N (25 oz), which means that the gun can be used frequently without the risk of taxing muscles. The average finger strength of men is 96 N (339 oz) and of women, 81 N (295 oz). When less than 10% of the maximum strength of a finger is used, no injury arises due to muscle strain.

Ergonomics and precision

The combination of an ergonomic handle and a short trigger for one or two fingers provides a perfect grip as well as the possibility to aim the air blow gun with precision and feeling. The ergonomic design of the handle automatically gives you the optimal blowing position so that you do not need to bend your wrist.

Triggers

Fitted with short triggers as standard to provide the most ergonomic grip. If desired however, they can also be equipped with extended triggers.
